

ORNATEC INTERNATIONAL

TENDER CREDENTIALS PACK

Credentials for landmark landscape supply.

Advisory, procurement and export delivery of mature trees, palms and shrubs for destination projects. This pack summarises Ornatec International's accreditations, supply network, capability and track record for inclusion in tender and prequalification submissions.

ACCREDITATIONS AND COMPLIANCE

Certified for the markets that ask the hardest questions.

Ornatec International operates across Australian and Asian production with the certifications that international plant movement demands. Compliance is treated as part of supply, not an afterthought.

SAUDI ARABIA

MEWA certified

Certified by the Kingdom's Ministry of Environment, Water and Agriculture, supporting compliant plant supply into Saudi Arabian projects including giga-project procurement contexts.

AUSTRALIA

Export Registered Establishment

Australian export preparation and certification capability for plant material being prepared for international movement.

CHINA

Export certification

Government-certified export capability supporting China-based project supply through the Guangdong production network.

COMPLIANCE

Phytosanitary coordination

Biosecurity, inspection scheduling and destination documentation support handled with each shipment, aligned to the import requirements of the receiving country.

HERITAGE

ISO quality systems lineage

Quality assurance practice running from the team's ISO 9002 certified nursery operations of the 1990s through to today's documented methods.

IMPACT

Responsible production heritage

Long-running Australian farm systems support practical, environmentally aware project supply decisions.

TRACK RECORD

Selected landmark projects.

PROJECT	DESTINATION	SCOPE
Hong Kong Disneyland	Hong Kong	Large-scale supply of mature trees and palms through park construction and opening.
Disneyland Shanghai	China	Supply, soft landscaping and on-site nursery through park delivery, 2012 to 2016.
City of Dreams	Macau	Resort landscape supply of mature specimen material.
Caesars Golf Macau	Macau	Landscape supply for the resort golf destination.
Red Sea Global	Saudi Arabia	Species selection and supply pathways for Red Sea coastal destination development.
Qiddiya and Green Riyadh context	Saudi Arabia	Giga-project procurement participation supported by MEWA certification.
Saadiyat Island, TDIC	Abu Dhabi, UAE	Prequalified supplier from 2009; supply into island development programmes.
Wynn Al Marjan Island	Ras Al Khaimah, UAE	Current resort destination supply context.
Hong Kong Science Park, TKO	Hong Kong	Green roof delivery with Paul Y Engineering, 2019 to 2021.

A fuller project register, with primary-source company records dating to 2002, is published at ornatecinternational.com/pages/projects and in the Knowledge Archive.

CAPABILITY AND NETWORK

From schedule to site, one accountable supplier.

Production and staging network

- **Australia:** Donkin Farm, Utchee Creek Queensland, advanced Australian trees and hardy native material with dispatch planning.
- **China:** Guangdong production network across Zhuhai, Enping and Zhongshan with acclimatisation for large hero specimens.
- **Thailand:** Ratchaburi staging hub for tropical, equatorial and drought-tolerant mature stock.
- **Wider network:** Malaysia, Vietnam, Philippines, New Zealand and Europe for project-specific sourcing.

Species access

- 1,400+ published species references with working supply size ranges.
- Curated Middle East coastal palette proven against saline air, saline irrigation and reclaimed ground.
- Destination-matched palettes for Gulf, Red Sea, island resort and Asian projects.

Export delivery method

- **Inspect:** stock quality, size, health, rootball, climate fit and destination suitability.
- **Prepare:** acclimatisation, root pruning, moisture management, staging and packing planning.
- **Certify:** biosecurity, phytosanitary documentation, customs and destination import requirements.
- **Move:** land, air or sea freight selected around specimen size, urgency and receiving conditions.

How to engage

Send the plant schedule with destination, quantities, size ranges and target delivery window. Ornatec reviews it against current availability, origin options and export pathway, and responds with a practical supply position.
